Before or after your activity or at the beginning of the evening, we can offer you a range of conferences : life of a guide, the business world or the effects of global warming...

Working as a mountain guide & the business world : a surprising parallel !

We quickly realize that this profession and the business world intersect : leadership and change management, decision-making in an uncertain environment, building a strong team spirit, ... there are a lot of focal points.

After the screening of our film 'Esprit Compagnie' with high quality scenes on the universe of the high-mountain guide job, a member of the Compagnie des Guides will develop a specific topic of your choice or just talk about his job.

Awareness of the impact of global warming on our glaciers

Conference with Ludovic Ravanel, geomorphologist and member of the Compagnie des Guides.

Ludovic received several awards for his thesis on mountain rock collapse and regularly gives speeches at the Montanvers to explain the impact of global warming on our glaciers. A fascinating conference not to be missed !
